

## Sprint 3 Plan, FridayFinder, Tribe 115A, 5/10/23

**Goal:** Allow users to edit a profile, add friends, and see suggestions

### Tasks Listing:

- 2.2 As a user, I want to save custom data so that it can be displayed on my profile [5]
  - add custom fields to user profile (2 hours)
  - create save button for editing profile (2 hours)
- 2.3 As a user, I want to display an image or avatar so others know who I am [5]
  - implement image upload on edit form component (2-4 hours)
  - Add image upload component (1-2 hours)
- 3.2 As a user, I want to be able to be given suggestions based on my history, proximity, and interests so that I have options on where I could go. [8]
  - Use location along with google maps data to showcase nearby attractions (3-5 hours)
  - Use history of user to suggest attractions (2-3 hours)
- 3.1 As a user, I want to see hotspots for attractions so I know where to go [3]
  - Add hotspot feature from Google Maps (1-2 hours)
  - Use certain attractions to limit the scope of hot spots (2-3 hours)
- 3.3 As a user, I want to be able to add friends so that I can interact with them.[5]
  - Create button to add friends (1-2 hours)
  - Link friends to database (3 hours)
  - Button to go to a friend's profile (1-2 hours)
